

DHDP
Dead Homies Dream Project

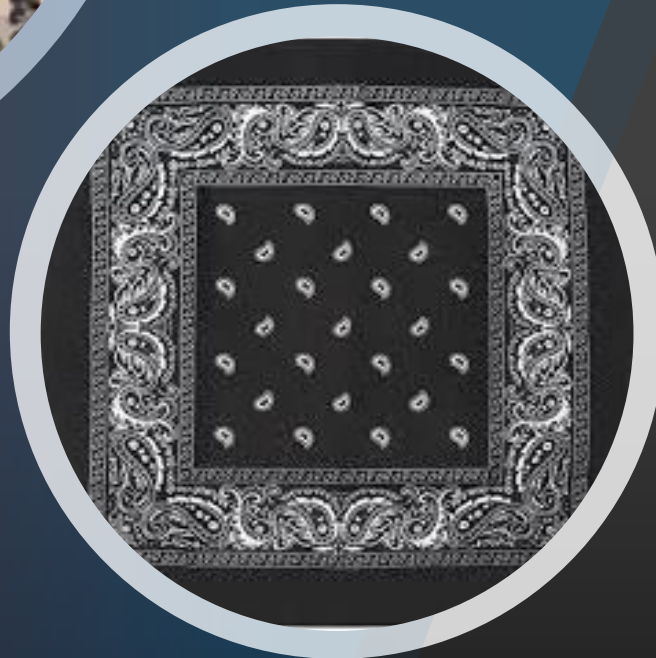

Project Overview: Providing the framework for community units, clubs, redevelopment and exchange

BANDANNA PEACE PROJECT

The Bandanna Peace Project will request that all gang members wear tied Bandannas to represent peace and brotherhood throughout the community. Individuals wearing peace Bandannas should not be targeted for violence in any way. In the event it should happen such an occurrence should be met as an act of treason.

- RED — BLOOD
- BLACK- PEACE
- BLUE - CRIP

NON-PROFIT COMMUNITY UNITS

Mapping out local urban communities, the plan will be to add nonprofit status to the present members of GANGS and readdress them as COMMUNITY UNITS

(FOR EXAMPLE)

- BLOODS/PIRU POLITICALLY, INDEPENDENT, REVOLUTIONARY, UNION
- CRIP CONTEMPORARY, REVOLUTIONARY INDEPENDENT PARTY

These units will develop community projects, events, community development, economic development and security.

COMMUNITY UNIT SPORTS LEAGUE

Each community unit will have a sports team that will compete with other community units in various sports to encourage exercise and healthy living within each community unit. Teams will play at community locations throughout the cities for championships and community fundraising, building community brotherhood and competition without violence.

PATHWAY **PASS** **PRISON** PROJECT

Each Community Unit will have a structured pathway planned for them. To bypass the Blackman to prison bridge, we will utilize the Community Units to end the programmed destruction of the community. Instead we use the Community Unit to restructure, rebuild, and rebrand the Blackman.

COMMUNITY UNIT DOCTOR/LAWYER POLICY

Each community unit will be required
from top ranked OG to have at least:

1 DOCTOR
1 LAWYER

The Community Unit will protect and
provided assistance to the chosen
individuals so that they may return to
that community and serve the families
of the Community Units years later.

TRIPLE OG

PART **01**

Community Units: Legendary Clubs

MIGHTY

FOREFRONT CLUB

- Business Security
- Community Security
- Community Development
- Community Volunteer Services
- Motorcycle Club Partnership
- Youth Transportation Services
- R.O.T.C

And More...

UNIFORM REQUIRED

BUFFALO SOLDIERS CLUB

- Wildlife development
- Wildlife Photography
- Nature Conservation
- Zoology
- Natural Disaster / Prevention and preparedness
- Eco-systems and Biology
- Exotic Animal Breeding
- Wildlife Veterinarian
- Dog Training / Disability Dog Training Wild Farming and Breeding

And More...

UNIFORM REQUIRED .

TUSKEGEE AIRMEN CLUB

- Engineering
- Aviation
- Software Development
- Robotics / Robot Wars
- Solar Power / Green Energy
- Architect
- Technology Research
- Video Gaming
- Virtual Reality
- And More

UNIFORM REQUIRED

BLACK WALL STREET CLUB

TRADING – INVESTMENT – STOCK – SHARES – MINERALS - MINING

SIMBA WACHANGA CLUB

- Farming
- Agriculture
- Seeding
- Natural Science
- Pollination
- Gardening
- Gardening Equipment Maintenance
- Farming/Garden Equipment Licensing Training
- And More

UNIFORM REQUIRED

PART **02**

Neighborhood Watch

WIRELESS NEIGHBORHOOD WATCH PROJECT

The Wireless Neighborhood Watch Project will allow all members to have active networking and visual sharing systems. These systems will use drones to connect in real-time: allowing drones that may lose frequency to be replaced with another one that was previously following cars from neighborhood to the neighborhood. This system will allow neighborhood watch members to provide 24/7 drone security and monitoring throughout the neighborhood: switching from neighbor to neighbor with live cloud save functions.

NEIGHBORHOOD WATCH: YOUTH STREET DROIDS

Street droids will allow the Neighborhood Watch to keep surveillance for playing children, community events in neighborhood parties and hangouts. It will also be used as a deterrent of drive-by shootings. Droids will also produce a live feed system that every Neighborhood Watch member can view. The Neighborhood Watch Youth Street droids will also be placed at parks and high-risk locations for the safety of the youth and the community.

GUNSHOT DETECTION VANS WITH DRONES

G.D.Vs will take over as drones are equipped with the gunshot detection systems and live access to the neighborhood watch cloud. G.D.Vs will assist law enforcement with the process of security and capture.

PORTABLE NEIGHBORHOOD WATCH BOOTHS

NEIGHBORHOOD WATCH BOOTHS

Utilizing several portable camera, drone, and secured security booths. For safety, booths will have gun proofing at all day locations. They will also be placed in areas such as parks and through the duration of special community events.

NEIGHBORHOOD WATCH COMMUNITY TACTICAL TEAM

To support community units' assistance in the neighborhood, each member will receive support in the form of a firearm certificate, metal detector and a partnership with the local motorcycle club.

METAL DETECTORS

FIREARM CERTIFICATE

MOTORCYCLE CLUBS

MUTUAL COMBAT FELLOWSHIP

By all means necessary with the goal of doing whatever it is possible to end gun violence. Community Mutual Combat locations will be a location for rivals to settle and talk out disputes with OGs and neighborhood watch members. If this cannot be reached mutual combat fellowship is implemented. Allowing the Community Unit laws to factor a physical outcome where both parties handle their differences in the ring and shake hands. A black eye is better than death.

VIOLENCE REBOUND PEN - PAL PROJECT

Rebuilding the bonds family as best we can when those families have lost loved ones due to gang violence. The REBOUND PEN-PAL PROJECT will introduce to one another the families to young men and women in the foster care system or youth whose parents may be imprisoned. In the process, extended family members are allowed to be introduced were family has been lost or removed. This is to build community bonds where unfortunate events have displaced families. We are looking to take the broken glass from all frames and build a community of forgiveness that can look in the mirror and feel proud.

UNITING THROUGH THE PAIN

With one simple app, a family can read the story of another family and develop a community bond of healing. It will be an app where former gang members can become community adopted sons of the mothers of slain black men across the community.

REPORT CARD COMMUNITY UNIT PROGRAM

Mothers having troubles with youth and the school can report their youth to the local community unit to assist with reaching out and developing a community bond that assists in any needed areas by all means necessary.

COMMUNITY PARTNERSHIPS

Partnering with churches, community centers, parks and recreation facilities to offer COVID friendly skills training and workshops. Church partnerships will also allow churches to become stronger community development centers for the youth.

PART **03**

Community Development & Mentorship

OFFERING

1. Science Labs
 2. Music & Recording
 3. Acting Classes
 4. Singing Classes
 5. Chess classes
 6. Arts & Craft
- 
- 

LIFE GIVING WORKSHOPS

Taught by specialists chosen by community leaders, neighborhood watch members, and church leaders.

DRIVER'S ED

**DEBATE
CLASSES**

TRUCK DRIVING

**CONSTRUCTION
EQUIPMENT
TRAINING**

**HAIR & BEAUTY
WORKSHOPS**

**VIDEO GAME
PROGRAMMING
& DEVELOPMENT**

Cook-off to Business Contest

The Community will host cook-off contests: from peach cobbler to Bar-B-Qs, competitions will be held to find the best cook and take their products to other mom and pop stores for sale to the community.

PART **04**

Community Exchange Programs & Mindset R e d e v e l o p m e n t

AFRICAN TOURISM BOARD

ECONOMIC TRADING

Sending African American youth to Africa to assist with economic development: schooling, farming, wildlife conservation, community development, cultural enlightenment, mineral, mining education and more...

COMMUNITY DEVELOPMENT

Building international bonds with our youth today to develop better trade for the adults of tomorrow.

International collaboration for long term economic stability.

TRAINING AT SEA

Oxnard oceanography training & Captain's licenses for
Import/Export shipping freights and cruise ship sailing.

LINKING COMMUNITIES

Building the future through technology.

Found on Google
Play and the
Apple Store.

APP FRIENDLY

All programs will come with an app to keep all communities linked to continue building the future of our children.

Implementing a dramatic change to rebuild,
rebrand and reintroduce a new Black man.
